- 3 Use the **Flawless Blending Sponge** to apply **Flawless Finish Foundation** in a shade that complements your skin tone. Blend thoroughly.
- 4 Choose a **Liquid Concealer** shade slightly lighter than your skin tone. Apply concealer to the areas indicated on the diagram in white. Use the **Flawless Blending Sponge** to gently blend out.
- 5 Apply **Contour Powder** (the darker shade) using the angled end of the **Contour and Highlight Brush** to the areas indicated on the diagram in brown. This technique can help downsize a large forehead, make a nose appear straighter and thinner, define cheekbones, and give the appearance of an angular jawline. Use the **Flawless Blending Sponge** to gently blend out any harsh lines to create a more natural look.
- 6 Use a **Powder Brush** to apply **Smooth Finish Mineral Blush** to the apples of your cheeks then blend toward your hairline.
- 7 For more mature skin or for a dewy appearance, use the **Cream Blush Stick**. Using the stick, apply directly to the apples of the cheeks. Then use fingertips to press and tap the product toward the hairline. Blend to soften the edges using the **Flawless Blending Sponge**.
- 8 Illuminate and brighten your complexion using the round end of the **Highlighting Brush**. Apply **Highlighting Powder** (lighter shade) to cheekbones and outer edges of the brow bones as indicated on the diagram in gold.
