Eyebrow Brush with Spoolie

Item #8020

STEPS TO PERFECT BROWS:

Step 1: Using the darker shade, create a line below and above your eyebrows using the hard-angled brush tip.

Step 2: Using short, light strokes, apply the darker shade to fill in eyebrows from the arch to the tail.

Step 3: Using short, light, upwards strokes, fill in the front of your brows with the lighter shade.

Step 4: Use the spoolie to blend upwards and over to pull color through for a natural-looking eyebrow.
